3.0 How We Work: The ACE Framework

ACE is how we turn our purpose into everyday work, including yours. It is built on three pillars:

Pillar	What it means for us
Align to propel profitable growth	Align all our work with our aspiration, Care. For Good., and help build a sustainable healthcare system while growing.
Challenge to transform	Keep challenging ourselves to improve, work more efficiently and prepare for the future.
Empower to excel	Empower each local market and team to drive its own growth, in line with national healthcare priorities.

In practice, ACE shapes the goals your team sets, the improvement projects you will join and how your local team serves patients.

4.0 Our Values in Action

These five values guide how we treat patients, colleagues and partners every day.

Value	What it means	Why it matters
Patients First	We put patients' needs first.	Every role, even behind the scenes, affects a patient's care and experience.
Integrity	We do the right thing.	Honesty builds the trust patients, colleagues, and partners place in us.
Empathy	We listen with our hearts.	Kindness and understanding make patients feel safe and cared for.
Teamwork	We are better together.	Good care depends on doctors, nurses, and support teams working as one.
Excellence	We champion continuous improvement and innovation.	Always improving keeps our care at world-class standards.

You will see these values in how your team works from your very first day.

5.0 Grow With Us

Area	Key Information

These tools make care safer, faster and more convenient for patients. You will work alongside them every day, and you help protect patient data by following our privacy policies and reporting anything suspicious.

7.0 Care. For Good. (Sustainability)

7.1 Our Four Pillars

Care. For Good. is our sustainability promise to four groups: our patients, our people, the public and the planet.

Pillar	What It Means
Patients	Putting patients first through quality care, better outcomes, innovation and a patient-centred approach.
People	Creating a supportive workplace through employee well-being, development, engagement and inclusion.
Public	Supporting communities by improving access to healthcare and helping people get the care they need.
Planet	Cutting our carbon emissions through energy efficiency, renewable energy and climate action.

7.2 Planet: Climate Action & Net-Zero

- We aim to reach Net-Zero emissions by 2050.
- In 2024, we cut emissions per patient bed-day by 3.2%, even as patient bed-days grew by 2.5%.
- In Malaysia, rooftop solar has been installed at 10 of our hospitals, with 6 more planned for 2025.

7.3 Public: Community Impact

We help people get the care they need, especially those who might otherwise go without. Since 2022, we have carried out more than 3.1 million health and cancer screenings.

Life Renewed Programme

By the end of 2024, IHH Malaysia had fully sponsored radiotherapy and radiosurgery for 946 cancer patients through the Life Renewed programme.

Key Takeaway

Care. For Good. is more than a slogan. It shows in how we care for patients, support our people, help communities and protect the planet. As part of the team, you help bring it to life every day.
