

MEMORANDUM

TO: Marketing Department
FROM: Executives, Rotation Programme, Strategic Department
DATE: 30 September 2026
SUBJECT: Key Points from the IHH Sustainability Report 2024 for Marketing Campaigns

This memo summarises the key points of the IHH Sustainability Report 2024 to support the Marketing Department in promoting IHH's sustainability progress to our existing and potential customers.

Overview

IHH is one of the world's largest healthcare networks, with over 80 hospitals in 10 countries and trusted brands such as Pantai, Gleneagles, Prince Court, Mount Elizabeth and Acibadem. Guided by our aspiration, "Care. For Good.", our sustainability approach rests on four pillars: Patients, People, Public and Planet, with measurable progress since 2022.

Key Pillars of Sustainability for IHH

- **Patients – Empowering our patients:** quality indicators tracked rose from 113 to 202; more than 8 million patients can view their medical records online; AI is used to detect sleep disorders and prevent patient falls.
- **People – Shaping the best place to work:** 49% of leadership roles are held by women; more than 1.2 million training hours in 2024; named in Forbes' World's Best Employers and TIME's World's Best Companies 2024.
- **Public – Nurturing a healthier society:** more than 3.1 million health and cancer screenings since 2022; 946 patients in Malaysia received free cancer treatment through the Life Renewed programme since 2023; RM1 million donated to Malaysia's flood relief in December 2024.
- **Planet – Protecting our planet:** emission intensity per patient bed-day reduced by 3.2% in 2024 despite 2.5% growth in inpatient bed-days; more than 90% less single-use virgin plastic in non-clinical areas in Malaysia, Türkiye, Singapore and Hong Kong; rooftop solar installed at 10 hospitals in Malaysia, with 6 more planned for 2025.

The key insights above may be used to highlight IHH's sustainability progress in upcoming marketing campaigns. Please contact us if you require the full report or further figures.
