EDUCATION

Universiti Malaysia Sabah (UMS)
BSc (Hons.) Mathematics with Computer Graphics **Expected Graduation: Nov 2026**

- CGPA: 3.05/4.00 | MUET: Band 4.0
- Final Year Project: Benchmarked YOLOv5 transfer-learning configurations for thermal-image object detection, analysing accuracy–efficiency trade-offs for real-time use (Supervisor: Prof. Madya Dr. Abdullah Bade)

Kolej Matrikulasi Labuan
Matriculation – Computer Science **2020 – 2022**

- CGPA: 3.61/4.00

EXPERIENCE

MALSA Corporation Sdn Bhd (Malsa Palm Oil Mill), Sabah
Software Developer Intern **Mar 2026 – Aug 2026**

- Engineered an FFB supplier management system consolidating registration and MPOB/MSPO certification records across 4 collecting centres, with smart filtering and autocomplete
- Developed 3 internal systems (HR employee database, company asset tracker and a budget management system used for the 2024–2026 company budgets) using Python, SQLite and vanilla JS
- Maintained company-wide recruitment records and the leave record workbook for all staff in Microsoft Excel, keeping HR data accurate and up to date
- Digitised ergonomic risk-assessment forms with Google Apps Script and automated palm-oil grading Excel templates
- Gathered requirements directly from end users and packaged the tools as click-to-run Windows executables, so non-technical staff could use them with no installation

EXTRACURRICULAR ACTIVITIES

Graphics & Mathematics Association (GAMmA), UMS
Event Director (Pengarah) – MCG Family Day 2024 **2024**

- Directed the organising committee for MCG Family Day 2024, overseeing event planning from preparation to delivery

Committee Member (AJK) – Faculty Events **2022 – 2025**

- Contributed to 12 faculty event committees, including Kem Matematik Perdana (3 editions: 2022, 2024, 2025), SCIMATECH 2025, Math Quest 2025 and the international-level MCG Career Talk 2024

Member – GAMmA **2024 – 2026**

SKILLS AND INTERESTS

Skills: Programming: Python, C#, SQL, JavaScript
Data: pandas, NumPy, Excel, Power BI
Machine Learning: PyTorch, TensorFlow
Apps & Tools: PyQt, Tkinter, React, Git
AI Tools: ChatGPT, Synthesia, Canva

Certifications: National Training Week 2026 (11 certificates): Power BI, Power Query, Conquer Messy Data, AppSheet, AI for the Workplace, Workflow Automation, AI Meets Cybersecurity (CompTIA SecAI+), First Step into Cyber Security, Threat Awareness, Leadership Awareness, Microsoft Office Essentials
Program AI untuk Rakyat, Ministry of Digital (6 courses, 2026): Cloud untuk Rakyat, Agentic AI for All, Introduction to Generative AI, AI Safety, CyberSAFE untuk Rakyat, AI Nation 2030

Languages: Malay (Native), Kadazan-Dusun (Native), English (Fluent)

Interests: Badminton, Coding, Social Events
